115. Were any maintenance agreements recorded at the county courthouse?

Yes No

116. Provide a summary of the number and type of stormwater BMP inspections conducted by MS4 personnel or contracted agents (construction as-built, ongoing operation and maintenance audits, complaint driven, etc.). Include (or attach) a summary of: i) the type and number of BMPs requiring maintenance or repair, ii) the number brought into compliance, and iii) the number of enforcement actions taken.
(WV MS4 2014 General Permit, p. 32, (u)(v))

Notes about Maintenance Agreements: The original building permit granted by the Building Department counts as a maintenance agreement in conjunction with the original design plans. The Building Department has the authority to enforce this to be repaired and or maintained for functionality. This can still be difficult pertaining to old subdivisions unless they have a Home Owners Association that would be responsible. If one does not exist the city may end up repairing the system if no other solution can be found.

For the upcoming 2025 permit period, the city plans to require maintenance agreements for sites 1 acre or greater.

117. Did you achieve all the goals that you identified in your SWMP related to developing and/or implementing and assessing a stormwater management program for this reporting period?
(WV MS4 2014 General Permit, p. 46, #3)

Yes No

118. If not, please describe the progress you did make towards achieving your goal(s), and any obstacles and possible solutions such as revised implementation schedules or revised measurable goals. If you are proposing any changes to your SWMP goals or schedule, please include them in Section V above.
(WV MS4 2014 General Permit, p. 46, #4)

Goal not achieved:

Have not found a mitigation program that will seem to work for our situations. Thus just held sites to the 1" capture.
